The Power of an Illusion

Film Series

Episode 3: “The House we Live In”

Race may be a biological myth, but racism gives different groups vastly different life chances. Fifty years after the Civil Rights Movement, the playing field is still not level and “colorblind” policies only perpetuate inequality.

The three-part series is an eye-opening tale of how what we assume to be normal, commonsense, even scientific, is actually shaped by our history, social institutions, and cultural beliefs.
